

CYRAH JOY FAJARDO

E-COMMERCE & SHOPIFY OPERATIONS SPECIALIST

Mabalacat, Pampanga, Philippines | +63 966 405 1081 | hello@buildwithcy.com | buildwithcy.com

PROFESSIONAL SUMMARY

E-commerce and Shopify operations specialist with 8+ years of experience managing online stores, product content, campaigns, and creative assets across Shopify, Shopee, and TikTok Shop. Hands-on Shopify experience includes store setup, theme customization, product pages, and third-party apps. Uses Claude Code and Cursor for AI-assisted development and brings an earlier background in software QA.

CORE SKILLS

Shopify & E-commerce: Shopify store setup, theme customization, product page setup, third-party app configuration, store management, product listings

AI-Assisted Development: Claude Code, Cursor, JavaScript, Node.js, Supabase, Vercel; working familiarity with HTML5, CSS3, Shopify Liquid, SEO, Shopify API, third-party API concepts, and responsive design

Marketing & Creative: Facebook Ads Manager, Meta Pixel, audience targeting, campaign analysis, Canva, Adobe Photoshop, CapCut

Quality Assurance: Functional testing, UI testing, regression testing, system validation, bug reporting, defect documentation

PROFESSIONAL EXPERIENCE

E-Commerce Business Owner & Operations Specialist | Self-Employed 2018-Present

- Manage online storefronts across Shopify, Shopee, and TikTok Shop, including store configuration, product listings, digital assets, marketplace content, and day-to-day operations.
- Set up and maintained Shopify stores from 2018 to 2021, including theme customization, product page setup, and third-party app configuration.
- Create product graphics, banners, and short-form promotional videos using Canva, Adobe Photoshop, and CapCut to support product marketing and social commerce.
- Set up and manage Facebook Ads campaigns, including Meta Pixel, audience targeting, budget allocation, and campaign review.
- Use Claude Code and Cursor for AI-assisted development of internal business tools with JavaScript, Node.js, Supabase, and Vercel; review and test outputs before use.
- Developed an internal affiliate commission tracking framework to support business operations and reporting.

Founder & Studio Operator | Yugto Photography Studio | Self-Employed 2024-2025

- Launched and operated a self-photoshoot studio, managing creative direction, technical setup, customer workflows, and promotional materials.
- Configured camera-to-monitor tethering, lighting, remote triggers, and high-resolution digital file delivery for client-operated sessions.

Software Quality Assurance Engineer | Contractor assigned to Accenture Philippines via Alsons/AWS Information Systems, Inc. 2016-2017

- Performed manual functional testing and user-interface reviews for corporate client platforms; documented bugs, defects, and system issues for development teams.
- Conducted regression testing and system validation before deployment and coordinated with developers to support software quality and stability.
